Environment Policy

The Company strives at all times to adopt an environmentally friendly attitude to all aspects of its manufacturing operation and complies with the appropriate directives.

All the company's waste material is disposed of via regulated companies that can exhibit the appropriate certification for the disposal of the relevant raw materials, solvents, lubricants and packaging.

All packaging materials are selected and used with regard to their ability to be environmentally acceptable and recyclable by the end user or their disposal agents.

Signed

Dated September 2011

Chris Williams
Managing Director
